EXPERIENCE

Self Employed — June 2020 — currently
Freelance Web Developer

- Helped clients set up their online business using Wordpress and Shopify. Adaptability was key in order to guarantee satisfaction. This meant constantly learning in order to meet customer requirements.

Coding in Schools — Feb 2020 — Aril 2020
Volunteer Teacher

- Developed a good sense of teamwork by working with other colleagues in order to teach fundamental coding concepts to children in school while still balancing my university workload.

Self Employed — Feb 2018 — Aug 2019
Computer Science Tutor

- Worked alongside students during their semester to cover a wide range of programming and theoretical topics in order to help them boost their grade. This often required learning new topics in order to support them.

Self Employed — Jul 2017 — Aug 2019
Freelance Artist

- Independently built and ran a small bespoke art business by designing and marketing canvases.
- Worked closely with clients on detail orientated projects that had tight deadlines thereby sharpening my time management skills.

QUALIFICATIONS

MTA: Security Fundamentals - Certified 2020
Coding Experience - Python, C++, Scala, HTML, CSS and JavaScript
